

The following three notes were generated on January 14, 15, and 16. These were entered by surgical residents and signed by their attending. The note from January 15 is 100% similar to the note from January 14. The note from January 16 contained enough unique free text that it was not picked up as an egregious case by the copy-and-paste technology.

Subjective

Objective

Assessment/Plan

Problems:

(1) Ankle arthritis

Status: Acute

Assessment & Plan:

S: NAEO

O:
